

STOP SPRAWL ON HAMILTON POOL ROAD

We the undersigned want controls put in place to prevent urban sprawl along the Hamilton Pool Road corridor. We oppose intense development that will inevitably degrade the environment, increase traffic congestion and fatalities, and degrade the quality of life. We oppose the spread of dense suburban subdivisions that will destroy the rural character of the community.

We call upon jurisdictions and regulatory agencies to use their authority to enact and enforce effective controls.

We call upon the LCRA to delay its plans to construct a water line on Hamilton Pool Road until strict controls and the means to enforce them are in place to protect the environmentally sensitive Barton Creek watershed and Hamilton Pool watershed. In the interim we ask that approval of water service contracts requiring construction of the water line be withheld.
